

Corporate Goals

Value Creation

Our goal is to create sustained growth in all segments of the airport management value chain. We generate above average financial returns in all our business segments. Therefore, we are among the top players in the industry in each segment.

We strive to improve our financing capabilities and achieve a strong debt-service performance.

Strong Performance

Our integrated business model ensures superior services due to safe, efficient and high-quality processes.

Our strong performance is reflected by both significant market share and customer satisfaction. Our goal is to improve this performance continuously.

Sustainability

As an employer and economic generator, we are conscious of our corporate responsibility for our employees, society and the environment.

In managing our business we focus on sustainability and ensure that our corporate activities conform to economic, ecological and social criteria.

Here you can find more detailed information on "sustainability".
