

Tradeport Hong Kong Ltd.

26.01.2007

Area of activity:

- Logistics via third-party service-providers
- Value-adding logistics services
- Core business: logistics services in the semiconductor and aviation electronics sector

Tradeport Hong Kong Ltd. owns and operates Hong Kong's most advanced logistics center at Hong Kong International Airport and the largest international air cargo center in the world. With its three-story air cargo center, Tradeport can provide independent supply-chain services to customers and 3PLs in time-sensitive industries.

Tradeport's integrated logistics services include:

- Warehousing and inventory management
- Raw materials management
- Finished goods inventory and distribution
- Postponement assembly
- Value-adding services such as labeling, kitting, repacking and more
- EDI exchanges or information flows between consumers, customers, 3PLs and Tradeport
- Rework management, crossdocking or merge-in-transit, post-production services
- Call center management
- Operational rationalization
- Process re-engineering
- Consulting and solutions design
- E-commerce handling
- Systems integration

Tradeport Hong Kong Ltd. is certified to ISO 9001:2000 and TAPA.

Fraport's share in the company:

Indirect 18,75% via Pantares Tradeport Asia Ltd.
