

Employee participation program

12.05.2004

Participation in success

A participation system with four variants, from which you can choose, exists so that you can participate in the success and stock exchange value of your company. Fraport AG will provide you with different amounts, depending on whether you decide in favor of purchasing Fraport shares.

Participation in success is an element of the LEA system and is granted for the past calendar year.

Fraport AG will set up your own securities account at Postbank EasyTrade AG and will pay the respective account and transaction fees when you purchase Fraport shares. Every year you can choose between the four variants of the success participation system.
