

Film Service

In the Film Service section, films on a wide range of topics are available in modem/ISDN and DSL quality. Please note that the films are copyrighted and must be credited to Fraport AG: "Film: Fraport AG".

Furthermore, we provide TV journalists an opportunity to use free of charge Fraport's extensive footage material for TV productions. In our  footage media archive (<http://fraport.cms-gomex.com/index.php?act=switchLanguage&eid=&language=en&PHPSESSID=a716f1830a947f>) you can view the material, cut it, and download it in broadcasting quality.

The footage media archive is an external platform; therefore, it requires separate registration.

Footage material will be made available exclusively to TV journalists. The use of footage material for current editorial TV purposes is free of charge.
