

Real Estate Development and Management

19.07.2006

Fraport - real estate management: development, marketing and rental of real estate at Frankfurt Airport(FRA)

We are the people to contact in all matters concerning real estate marketing at Frankfurt Airport. We take care of all non-operational areas and property assets, selectively managing and developing them as a capital investment or for company use. The existing office premises at Frankfurt Airport, the "gateway to the world", are ideally suitable for internationally active companies.

We draw up individual, user-related marketing concepts taking account of current market and industry developments. The sites we offer at or in the immediate vicinity of the airport are perfectly integrated in FRA's excellent transport infrastructure.

Real estate administration

Our duties also include administration of the two Frankfurt Airport Centers (FAC 1 und FAC 2). Some 70,000 m² of exclusive office space are available for rental in the two buildings. Locate your headquarters or a branch office at Frankfurt Airport and enjoy the additional benefit of having us as your support partners. We can find suitable sites for requirements of every kind.

■ Frankfurt Airport City: An attractive range of office locations

CargoCity Frankfurt

We are also responsible for the planning, development, operation and marketing of ■ CargoCity Frankfurt (<http://www.airportcity-frankfurt.com/cms/default/rubrik/9/9931.cargocity.htm>). Our planning creates the right conditions for the successful future development of the cargo area. Our comprehensive range of services covers project development, planning and consulting right up to project study. We offer an efficient concept that includes service providers along the entire logistics process chain - directly at the Airport.

Most of the big names in the international cargo business are already represented here. Over 250 airlines, shippers, express services and other service providers profit from the ideal conditions at CargoCity Frankfurt. A total of over 9,000 jobs have been created here since the opening of CargoCity South in 1996. We will continue to promote the expansion of CargoCity Frankfurt in the future by exploiting growth reserves and developing new areas.
