Total number of shares and voting rights

A total of 92,468,704 no-par shares have been issued at the time the Annual General Meeting is convened. All issued shares grant one vote each; the number of voting rights accordingly amounts to 92,468,704. Of the 92,468,704 no-par shares, 77,365 shares are held by Fraport AG itself (treasury shares) at the time the meeting is convened. The treasury shares do not grant voting rights as long as they are held by Fraport AG.
