Frankfurt, March 16, 2017, 3.53 PM CET

Release of an ad hoc announcement according to Section 17 MAR

Today, March 16, 2017, Fraport AG Frankfurt Airport Services Worldwide (Fraport AG) was awarded during a public auction the concessions for operating the airports of Fortaleza and Porto Alegre in Brazil.

The fixed concession price for Fortaleza Airport amounted to around 1,505.75 million Brazilian Reais (around 446.81 million euros). In addition, Fraport will pay a variable component amounting to 5 percent of the airport's annual revenue. The Porto Alegre Airport fixed concession price amounted to around 382.01 million Brazilian Reais (around 113.36 million euros), plus variable 5 percent annual revenue related component. Of those fixed concession amounts, around 715.51 million Brazilian Reais (around 212.32 million euros) will be due at closure of the concession agreements. The remaining fixed concession payments will start 5 years after closing and will be spread over the remaining concession terms. The 5 percent revenue-related component is payable over the total concession terms.

The concession terms are 30 years for Fortaleza Airport and 25 years for Porto Alegre Airport.

Currently, Fraport AG is the sole concession holder of the 2 airports. Therefore, the concessions and future results will be fully consolidated on Fraport Group level.

Following the takeover of the concessions, Fraport AG expects an additional accumulated EBITDA at the Group level resulting from the 2 airports of around 350 million euros during the first 5 years and an accumulated negative contribution to the Group result ranging from the mid to high double-digit million euros. Due to the takeover of the concessions and the mandatory capital expenditure, Fraport AG expects an increase in Group financial net debt by up to around 700 million euros in the first 5 years.
