Frankfurt Airport Competitive Landscape I

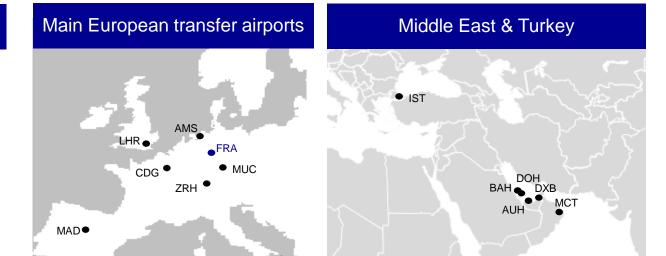

Domestic airports¹

Competition for O&D passengers

 Competition depending on availability of route, flight time, ticket price, travel distance to airport, preference of airline, and/ or alternative way of travel, i.e., train, bus, or car

33

Competition for transfer passengers

Except for alternative way of travel, competition same as in O&D market but also: availability of transfer flight to final destination or destination nearby, total flight duration: fitting time of connecting flight and direct flight path vs. diversion, density of network: number of frequencies to origin and destination, quality of airport: transfer process for passenger and baggage as well as comfort level
