IFRS 16 accounting for lessees in a nutshell:

Transition from off-balance to on-balance, i.e., leasing contracts (mainly building / land rental contracts and retail concession agreements) must in future be accounted for in the same way as IFRIC 12. Recognition of a right to use and a liability in the amount of the present value of the future lease payments (previously only the future nominal payments were disclosed in the notes) = EBITDA relief and increase in D&A and interest expenses.

For Fraport: approx. 40mn increase in EBITDA, mildly positive on EBIT and mildly negative on EBT. Additional assets and liabilities of up to 340mn will now be recorded
