Fraport’s policy

“We are convinced that sustainable business activity is the key prerequisite for our company’s ability to meet future challenges and for our claim to a position of leadership in the industry. In its role as an international provider of high-quality airport services, Fraport AG continuously works to optimize processes, products, and services with an eye to our employees, customers, owners, the environment, and society while developing responses to future challenges at an early stage. This enhances the company’s value in the long term, which benefits our employees* and stakeholders and serves to express the increasingly sustainable alignment of our business activities. Everything we do each and every day is based on the Fraport basic values of honesty, integrity, trustworthiness, responsibility, transparency, loyalty, and fairness.

We are also committed to upholding the principles of the UN Global Compact in the areas of human rights, labor standards, environmental protection, and fighting corruption. We are also guided by the core labor standards of the International Labour Organisation (ILO), the conventions of the United Nations, and the OECD Guidelines for Multinational Enterprises.”
